Programming

Collective .1 hosted a daily series of tours, book signings and Collective Conversations which took place onsite and spotlighted influential ideas in the world of design. Programming in this inaugural year drew on the vitality and creativity of New York, with wide-ranging participation from city-based creative professionals, curators, collectors and others.

Access to tours, book signings and Collective Conversations were included in the Collective .1 admission. Tours required pre-registration.

Tours for adults and children will depart from the Event Lounge. The Lounge was also the site of all book signings and Collective Conversations.
